**Subpart 1809.1—Responsible Prospective Contractors**

**1809.104-4 Subcontractor responsibility.**

Generally, the Canadian Commercial Corporation's (CCC) proposal of a firm as its subcontractor is sufficient basis for an affirmative determination of responsibility. However, when the CCC determination of responsibility is not consistent with other information available to the contracting office, the contracting officer shall request from the CCC and any other sources whatever information is necessary to make the responsibility determination.

Upon request, CCC shall be furnished the rationale for any subsequent determination of nonresponsibility.

**1809.106 Preaward surveys.**

**1809.106-1 Conditions for preaward surveys. (NASA supplements paragraph (a)).**

(a)(i) Preaward surveys are used only to assist the contracting officer to make determinations of responsibility under FAR 9.104. They are not to be used to obtain information useful to proposal evaluation that does not directly relate to the responsibility determination. Accordingly, preaward surveys shall not be used except in rare circumstances when determination of responsibility cannot be made without the specific information that can be provided only in a preaward survey report and only after all other means of obtaining the required information have been explored.

(ii) Surveys shall not be performed for companies of any size performing study or research contracts.

In discussions with representatives of the company being surveyed, NASA preaward survey team members shall not refer to or comment on the possibility of award to the prospective contractor.
